---

Naturally curious, driven Web Developer with innate desire to contribute to ambitious projects and absorb new concepts. Diverse skillset ranging from client-interaction, market analysis, multi-level organization, in addition to frequent, regular practice of acquired technical knowledge. Passion fueled by eagerness to solve new problems, keep up to date on new technologies, and implement best practices. Strong proponent of ownership of responsibility and active in team environments. Dedicated, capable student with 1200+ hours of formal programming instruction and 600+ hours of personal study and project development.

## Technical Skills:

---

### - Front-End

HTML5, CSS3, JQuery,  
AngularJS, WordPress  
Bootstrap,

### - Back-End

Express, NodeJS, Rails,  
SQL(MySQL, PostgreSQL),  
Mongo DB

### - Stacks/ Languages

LAMP(PHP)  
MEAN(Javascript)  
RoR(Ruby)

### - Methodology

MVC, OOP, AJAX  
Responsive Design

### - Miscellaneous

Git, GitHub, Grunt

## Education:

---

### Coding Dojo – Burbank

- Double Black Belt,
- 2015

### B.A. Business Economics

- University of California,  
Riverside, 2012

## Project Highlights:

---

### The Pokemon Store

- A gag e-commerce site inspired by the hit 90's TV show. The site was built using PHP, Codeigniter, MySQL DB, HTML, and CSS.

### AIR DnD

- A social connection site based on the popular AirBnB model. The site was built using Javascript, MongoDB, Express, Angular, HTML, and CSS.

## Recent Activity:

---

### SLR Lounge 2015-2016

- Participate in debugging and maintenance sprints
- Collaborate to build out subscription-based service incorporating Stripe API and UI for content management.
- Create page templates based off design documents.

### Coding Dojo 2015-2015

- Completed an immersive, intensive course teaching basic CRUD operations using LAMP, MEAN, RoR stacks.
- Achieved Double Black Belt status, displaying working proficiency in all three stacks

### New Star Realty & Investments 2011 – 2015
